MEMORANDUM FOR: Chief, Plans and Programs Staff, OL

FROM:

[REDACTED]
Chief, Systems Analysis Branch, EO/OL

SUBJECT: New Communications Support Requirements
for FY 1980 - 1984

REFERENCE: Memo dtd 10 Nov 77 to C/SAB/EO/OL fr
D/L, same subject (OL 7 5062) (U)

(U/AIUO) It is difficult to precisely predict data communications requirements in connection with data processing plans for FY 1980 - 1984, but some possible items are:

a. (U/AIUO) increased data transfer rates from [REDACTED]. It is conceivable, in the above time frame, that computer-to-computer speeds (9600 baud) will be required.

b. (U/AIUO) If the amount of data being transferred warrants it, increased data transfer rates from the [REDACTED] (in lieu of secure voice speeds). Again, 9600 baud is the preferred rate.

c. (U/AIUO) Ditto for the [REDACTED]

d. (U) A backup system for the infrared link between Headquarters and P&P building.

* e. (U/AIUO) Installation of new terminals in various Logistics areas in [REDACTED] Depot, in Headquarters, and in P&P building.

1/11
* Per Dir. No need to include. ^{of} Would obtain reports thru ODP. ✓

[REDACTED]
